Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Delong (5947356). Delong teaches a box having a floor, at least one clamp device 80, 90, having an open position in Fig. 3, and a closed position in Fig. 4, and at least one lever structure mounted inside the box, the lever structure being connected to the clamp device so that movement of the lever structure from the first position to the second position as shown in Fig. 3 and 4 causes the camp device to move from the opening position to the closure position

With respect to the cross bar, it is regarded as an intended used. The intended use limitation does not impart any structure over the structure in Delong. In the very least the box in Delong can be mounted on a cross bar having a hole similar to portion 24.

Regarding claim 2, note the camp portion along surface 61.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3727

4. Claims 8 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Delong. It would have been obvious for one of ordinary skill in the art to provide at least 3 clamp devices in Delong to provide added security.

Allowable Subject Matter

5. Claims 10-32 are allowed.

6. Claims 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
